3.3 Extension / Change of Data Content

3.3.1 EC 630 / Bear Stearns Pricing Direct Inc. New York in MDF and TK iD – new product structure

We would like to inform you that Bear Stearns, New York, is restructuring its product range for a large number of fixed-income instruments that are currently on EC 630, the changes will be effective from **1 March 2008**. The instruments concerned will be filtered out of EC 630 and be managed under four new exchange codes 2832, 2833, 2834, 2835 in order to ensure correct entitlements as in future the charges will be per instrument and per quotation. The reduced number of securities on EC 630 will be made available to authorised customers as of 2 March 2008, charges will remain unchanged. Owing to the new product structure at Bear Stearns, the new exchange codes 2832, 2833, 2834 and 2835 will not be available in Market Data Feed MDF and Telekurs iD. A file with the reduced number of securities on EC 630 can be provided upon request.

8. Reminder of former pre-announcements

8.1 Extended format Swiss Valoren number

The systems at Telekurs issuing the Swiss Valoren numbers will be modified in the way that after they have reached number CH: 4'999'999, they will switch to CH: 10'000'000 and start assigning 8-digit Swiss Valoren numbers. This modification is expected to take place in the 4th quarter of 2008. In view of the future, we

recommend not to limit the numbers exactly to 8 digits, but to opt for a format of 9 characters. 9 characters correspond to the basic number of the ISIN.

8.2 Migration / change of Chicago Board of Trade instruments

Chicago Mercantile Exchange (CME) has acquired Chicago Board of Trade (CBOT) and plans to migrate the CBOT feed to the CME market data platform which involves the migration of the following exchange codes:

EC current (Floor trading))	New EC	Migration date
844 / CBOT Commodities	151	3 March 2008 (new migration date)
786 / eCBOT Promotional	787, 788, 789	25 February 2008 / 3 March 2008

The exchange codes of the electronic trading, which are EC 787, 788 und 789, remain unchanged. The contracts on EC 786 will be migrated in several steps to EC 787, 788 and 789. CME plans to discontinue the trading of the metal contracts on **EC 786** as of **June 2008**.

Please find the migration dates and the underlying Swiss Valoren numbers in the attached file: MigrationCBOT_CME_150208). The migrations dates indicated might be subject to changes by CME.

The exchange codes 842, 843, 844 and 786 will be deleted at a later stage.

8.3 NASDAQ new symbology

NASDAQ will be implementing structural changes to its ticker symbols as of **5 April 2008**. Please refer to the attached document for further details: NASDAQSymbology_D.
