8. Reminder of former pre-announcements

8.1 Extended format Swiss Valoren number

The systems at Telekurs issuing the Swiss Valoren numbers will be modified in the way that they will switch to CH: 10'000'000 and start assigning 8-digit Swiss Valoren numbers. This modification will take place at the latest in mid 2008. We recommend not to limit the numbers exactly to 8 digits, but to opt for a format of 9 characters in view of the future. 9 characters correspond to the basic number of ISIN.

8.2 SWX / Migration from EC 349, 351, 352 to EC 4

The announced migration for 14 January 2008 will not take place.

8.3 Change of the underlying-CH-Valoren number for wheat futures and options on futures

Currently the underlying CH Valoren number 274230 Wheat Bushel is used for all futures and options on futures. Depending on the wheat quality and origin and on the contract size, **new underlying CH-valoren numbers** will be allocated to the wheat contracts effective **14 January**:

Exchange	Current Underlying-CH-Valoren number	Underlying-Valoren number effective 14 January 2008	Description new Underlying CH-Valoren number
396	274230	3494982	Milling Wheat ton Europe
597	274230	3513182	Milling Wheat ton South Africa
810	274230	2328820	Feed Wheat ton Europe
166	274230	3513185	Feed Wheat ton Canada

8.4 Migration / Change of Ampega and Helaba securities

Due to the switch from manual input to electronic data processing the instruments of Ampega and Helaba, which are currently on EC 245, will be migrated **effective 31 January 2008** as follows:

Securities	Current EC	New EC
Ampega	245	2675
Helaba	245	2668

An instrument list (HeLaBA_AmpegaGerling) is attached.

8.5 Migration / Change of Chicago Board of Trade

Chicago Mercantile Exchange (CME) has acquired Chicago Board of Trade (CBOT) and plans to migrate the CBOT feed to the CME market data platform, which involves the migration of some exchange codes:

EC current (Floor trading))	New EC	Migration date
842 / CBOT-Promotional	151	21 January 08
843 / CBOT Equities	151	21 January 08
844 / CBOT Commodities	151	25 February 08

The exchange codes of the electronic trading, which are EC 787, 788 und 789, remain unchanged. However, CME plans to discontinue the segment „promotional“ on **EC 786** as of **14 January 2008**. The exchange codes 842, 843, 844 and 786 will be deleted later on.

An instrument list with the underlying securities can be provided (file: Migration CBOT_CME).
