7.3 News agencies

None

8. Reminder of former pre-announcements

8.1 Extended format Swiss Valoren number

The systems at Telekurs issuing the Swiss Valoren numbers will be modified in the way that after they have reached number CH: 4'999'999, they will switch to CH: 10'000'000 and start assigning 8-digit Swiss Valoren numbers. This modification is expected to take place in the 4th quarter of 2008. In view of the future, we recommend not to limit the numbers exactly to 8 digits, but to opt for a format of 9 characters. 9 characters correspond to the basic number of the ISIN.

8.2 Correction: Migration from EC 245 to EC 2851

EC 245 will not be migrated to EC 2851 as announced.

On EC 245 there are approx. 100 Malaysian bonds, which will remain on this exchange code. The mid prices continue to be accessible free of charge. In addition, a new data source will be implemented with **EC 2851 / Bondweb Malaysia (BWM.)** BWM is the supplier of valuation prices and key figures for approx. 1.900 Malaysian bonds. The implementation is planned for 16 June 2008. This new service will be liable to customer fees.

8.3 Migration / Change of Chicago Board of Trade instruments

Chicago Mercantile Exchange (CME) has acquired Chicago Board of Trade (CBOT) and supplies the CBOT data on CME market data platform now. This takeover led to the announced transfer of exchange codes. This transfer has been carried out with the **exception of the metal contracts, which will remain on EC 786 until further notice.**

Old EC	Description	Underlying Valoren number	EC new	Migration date
786	100 oz Gold	274702	789 / CBI	unknown
786	5000 oz Silver	274695	789 / CBI	unknown
786	Mini Sized Gold	1262335	789 / CBI	unknown
786	Mini Sized Silver	1260373	789 / CBI	unknown

The exchange codes of the electronic trading, which are EC 787, 788 and 789 remain unchanged. The exchange codes 842, 843 and 844 will be deleted at a later stage.
